**BOTTLED WATER AVAILABLE FOR RESIDENTS AFFECTED
BY WATER SHUT OFF**

Due to significant difficulties encountered while repairing the water system, bottled water will be available at Ennis Town Hall. The water is for residents affected by the water service disruptions. The water will be located on the east side of the building off Pearl Street.

The repairs will continue through the weekend in order to complete the project and reduce disruptions to the Town's water system and vehicular traffic. Traffic and water service may be impacted through Monday June 13th.

Ennis Public Works has reported numerous residents walking past the safety barriers and into the work zone. We understand you are curious, when you interfere with the work it slows progress and causes safety issues. Please avoid the area and stay out of the very well-marked work zone for the workers and your safety.

The Public Works Employees and Contractors have been working tirelessly and without much sleep to repair the water system, this way in the future you will have better water service with less interruptions. Thank you for your cooperation while Ennis Public Works strives to improve the Town's water system.
