**NEWS RELEASE  
FOR IMMEDIATE RELEASE**

**Update**

April 11<sup>th</sup>, 2023 5:15pm

**Water Main Break Affects Town of Ennis Residents  
*DEQ Boil Order***

**April 11th 2023 5:15 pm:** A large water main break on East Main Street in Downtown Ennis is affecting water service to some Town residents. MT DEQ is requiring a precautionary BOIL WATER ADVISORY.

Due to significant damage to the water system, repairs are unable to be completed today and may continue for additional days.

Due to the disruption of the water service bottled water will be available for pickup at Ennis Town Hall located at 328 W. Main Street for residents only affected by the water service disruption.

Pickup time are as follows:

Tuesday 4/11/2023 from 5pm until 8pm

Wednesday 4/12/2023 from 6am until 7pm

Thursday 4/12/2023 (if needed) from 6am until 7pm

Parking will be restricted on East Main Street (US287) and the traffic pattern has been changed until repairs can be completed. Expect delays and please slow down.

See page 2 for the MT DEQ Boil Order.

For immediate updates please visit the Town of Ennis's web page at [www.ennismontana.org](http://www.ennismontana.org)

Updated information will be provided as the situation unfolds.

# IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

## Boil Water Advisory

for

The Town of Ennis

MT0000208

**Water System Water may be Contaminated**

On 4/11/2023 our water system experienced a water main break which could have resulted in contamination of the water supply. Because of the loss of pressure, it is unknown if contaminants could have infiltrated the distribution system. This is a precautionary **BOIL WATER ADVISORY** and as our customers, you have a right to know what happened, what you should do, and what we are doing to correct this situation.

This **Boil Water Advisory** is precautionary. The town of Ennis public water supply has experienced a loss of pressure due to a water main break. Water system personnel are working diligently to get the water main repaired and disinfected. Your cooperation is needed. Please adhere to the advisory until further notice.

### What should I do?

- **Boil your water.**
- *People with severely compromised immune systems, infants, and some elderly may be at increased risk. These people should seek advice about drinking water from their health care providers. General guidelines on ways to lessen the risk of infection by microbes are available from EPA's Safe Drinking Water Hotline at 1-800-426-4791.*

### What does this mean?

- As a precaution boil the water before consuming until advised otherwise.
- *Fecal coliform and E. coli are bacteria whose presence indicates that the water may be contaminated with human or animal wastes. Microbes in these wastes can cause diarrhea, cramps, nausea, headaches, or other symptoms. They may pose a special health risk for infants, young children, and people with severely compromised immune systems.*
- *The symptoms above are not caused only by organisms in drinking water. If you experience any of these symptoms and they persist, you may want to seek medical advice. People at increased risk should seek advice about drinking water from their health care providers. Inadequately treated water may contain disease-causing organisms. These organisms include bacteria, viruses, and parasites which can cause symptoms such as nausea, cramps, diarrhea, and associated headaches.*

### What is being done?

- Repair work is being done in order to restore water to the community.
- Bacteriological samples of the water will be collected.
- Personnel are closely monitoring the situation and will update users.
- General guidelines on ways to lessen the risk of infection by microbes are available from the EPA Safe Drinking Water Hotline at 1-800-426-4791.

*\*Please share this information with all the other people who drink this water, especially those who may not have received this notice.*
