**Water Valve Repair Will Affect Town of Ennis Residents**  
***Scheduled Water Valve Repairs - UPDATE***

**May 8th 2023 6:00 pm:** On Monday May 8th, 2023 at approximately 6:00 pm scheduled water valve repair work will begin at the intersection of West Main Street and South First Street. Water service will be affected in the following areas:

Chowning Street  
West Main Street between First Street to Chowning Street  
South First Street between Main Street and Steffens Street  
East Main Street between First Street and North Second Street

Water service is scheduled to resume after the valve replacement by 6:00 am on May 9<sup>th</sup>, 2023.

Due to delays with MDT permitting and old debris underground the scheduled maintenance time and water disruption was forced to be pushed back and will begin at 6:00 pm on May 8<sup>th</sup>, 2023.

The water service customers affected by the water service disruption will be under a Boil Advisory until Montana DEQ has tested and approved the water samples after the repair.

Construction and repair work will continue for up to three days at the intersection, expect detours and possible delays. Weather permitting on May 18<sup>th</sup>, 2023 scheduled road repairs will be made to all the areas along East Main Street that have been affected by the recent digging.

Ennis Public Works is diligently working on water and sewer maintenance to ensure the Town's water and sewer system functions as designed. Please slow down near the work zones and be patient while the maintenance takes place. We apologize for the inconvenience.

For immediate updates please visit the Town of Ennis's web page at [www.ennismontana.org](http://www.ennismontana.org)

Updated information will be provided as the situation unfolds.
