**NEWS RELEASE**  
**FOR IMMEDIATE RELEASE**  
July 31<sup>st</sup>, 2023 3:00pm

**Fire Hydrant Replacement**  
***Scheduled Maintenance***

**July 31<sup>st</sup>, 2023 3:00pm:** Beginning Wednesday August 2<sup>nd</sup>, 2023 Ennis Public Works will be replacing a fire hydrant located on the corner of East Hugel Street and South First Street. East Hugel at South First Street will be closed for the fire hydrant replacement.

Beginning Wednesday August 2<sup>nd</sup>, 2023 sometime after 9am water service will be interrupted in order to replace a fire hydrant. The following locations are expected to be affected by the water service interruption which should last less than 6 hours:

South First Street from E Steffens Street south to E Fagin Street  
South Third Street from E Steffens Street south to East Fagin Street.  
East Ennis Street  
East Hugel Street

Once water service has been restored a Boil Order will be issued for the residents affected by the water service disruption. The Boil Order will remain in place until water samples have been tested and conform to DEQ standards.

By repairing the fire hydrants Ennis Public Works is helping ensure the fire department has access to water if the need arises.

Ennis Public Works thanks you for your understanding and patience while the Town's water system is improved.

For updates, please visit the Town of Ennis's web page at [www.ennismontana.org](http://www.ennismontana.org)

Updated information will be provided once the project begins.
